CST1500 Computer Systems Architecture and Operating Systems

Online Session

Adam Philpot

Lecture Videos

- Week Seven

- Lecture 14 Synchronization Tools
- Lecture 15 Deadlocks

Module Survey

- An opportunity for you to provide some feedback on the modules that you are studying.
- Your feedback matters.
- National Student Survey (NSS) in year 3 – very important.
- Important for us as educators to know what we are doing well, what we are doing badly, and general information from the students.
- Time in the lab will be allocated to completing the survey.
- Alternatively, complete the survey in your own time.
- **Very important that you complete the survey!**

What are the questions?

- The surveys cover the following themes at module and programme level:

- Teaching on my course;
- Learning opportunities;
- Assessment and feedback
- Academic Support
- Learning Resources
- Student Voice
- Mental wellbeing services
- Freedom of expression

- Open text questions

How can students complete the module survey?

My Surveys

Have your say

As a university, we really value your feedback on your experience. By having your say, together we can continue to shape and improve your experience.

Please complete this survey(s). Your responses are completely confidential and results are anonymised. Once the survey closes, you will receive a response on how the results will be used.
