CST1500 Computer Systems Architecture and Operating Systems

Online Session

Adam Philpot

Lecture Videos

- Week Six

- Lecture 12 Threads Concurrency
- Lecture 13 CPU Scheduling

Modification to Week 6 Lab Worksheet

- The Week 6 labs will primarily be for students to demonstrate their Coursework One to their lab tutors ~~at their specified time~~. The SLAs will provide some support for Coursework One.

- There is not a specified time for the lab demonstrations.

CW1 SOB Statistics

- 98 students with 10 SOBs each -> 980 SOBs to demo.
- Even allowing 2 minutes for each SOB, it would require 1960 minutes, back to back to view every student’s SOBs. That’s 32 hours and 40 minutes…
- The last 2 weeks Ali and I have viewed SOB demos exclusively and it has not been ideal.
- Therefore, you should make video demos for your SOBs as we cannot view the remaining 759 outstanding SOBs in 3 hours.

Coursework One – SOB Demonstrations

- **The week 6 Lab is the final time to demonstrate your SOB Portfolio.**
- **However, there will be limited time and we will not be able to view every student's SOBs – it is just not possible.**
- **Therefore, you are strongly advised to make video demos for your outstanding SOBs and upload them with your submission i.e. the SOBs that you have not demonstrated yet.**
- **DO NOT leave your demonstrations until the last minute, as there is a chance that we will not have time to see you.**
- **Finally, there will not be any additional time to demonstrate SOBs after the deadline.**

CW1 Option

- If you are struggling to get the work done on time you have an option.

- Page 12 in the module handbook:

*In the event that Coursework One does not meet the **minimum grade**, ONE resubmission may be made before the end of the module – Week 12 - 13th December 2024. Students should submit the same assessment and draw on the feedback given in order to improve their grade. This second submission will be treated as a first attempt and **will not** be capped at 40%.*

You MUST submit something to be eligible to resubmit. If you DO NOT submit anything, you WILL NOT have the opportunity to resubmit.

CW1 Option

Minimum grade to pass this coursework is = 40%.

CW1 weighting = 50% of the module.

Your Mark divided by 50 multiplied by 100 will give you the CW1 grade.

For example: 20 / 50 * 100 = 40%.

Therefore, if you submit **Three SOBs only,** you cannot achieve 40% and will have the opportunity to improve/complete your work and submit the portfolio by **the end of week 12**.

There will be no penalty and you could still potentially achieve the full 50% for Coursework One.

CW1 Option

You MUST submit something to be eligible to resubmit. If you DO NOT submit anything, you WILL NOT have the opportunity to resubmit.

- IMPORTANT CONSIDERATIONS:
- From week 7 onwards there will be Coursework Two to start working on.
- You will have other work from CST1510 to work on too.
- Try to complete the SOB Portfolio as quickly as possible if you do decide to take this option.
- **GOOD NEWS: Weeks 7 and 8 are covering Python Basics** 😀

Coursework One

- Coursework One deadline:
- Friday 1st November 18:00 (2 hour window until 20:00).

- Extenuating Circumstances:

https://mymdx.mdx.ac.uk/campusm/home#pgitem/420825/t

- LSF/LSP have an additional 5 days to submit with no penalty:
- Wednesday 6th November 18:00 (2 hour window until 20:00).
- There will not be extra time to demo SOBs – make video Demos.

A quick question with Vevox
